

## Evaluation Matrix

<b>Name of teaching resource</b> Water Cycle Pinterest Board.
<b>Weblink (if web based)</b> <a href="https://www.pinterest.com/emmazieg13/classroom-ideas-on-the-water-cycle/">https://www.pinterest.com/emmazieg13/classroom-ideas-on-the-water-cycle/</a>
<b>Who should this digital teaching resource be used with? (ie year/grade)</b> This Pinterest Board is appropriate for educators teaching year 7 students about the water cycle.
<b>How should it be used? (e.g. individual, whole class)</b> This Pinterest board gives ideas and resources for educators teaching the water cycle. The Science experiments, songs, and videos can be watched and completed as a whole class. The written work on the other hand should be completed individually.
<b>Which subject or learning area would it be most appropriate to use in?</b> According to the Australian Curriculum (n.d), year sevens learn about the water cycle. Making this resource suitable for a year seven science class.
<b>Identify the strengths of this teaching resource</b> This resources' strength is it provides various activities. These include art activities, songs, performance, and work on vocabulary. By providing different activities, educators can chose which activities best suits their students to gain their attention. This can be a fun and engaging activity for students as they are getting involved.
<b>Identify any weaknesses of this teaching resource</b> This resource could provide more art activities where students can display their work on the water cycle in the room. By displaying their work in the room, children may feel a sense of accomplishment and pride in their learning achievements.
<b>Explain any ideas you may have for further use of this teaching resource</b> Educators can also use this teaching resource to create their own Pinterest board based on other learning activities they have done with the students. This could be adding images, experiments, or examples of students work. Educators could then reflect on their class lessons and gain insight from other educators.
