|--|
| Name of teaching resource Australian Prime Minister |
| Weblink (if web based) http://prezi.com/wzjd1ffoxltu/?utm_campaign=share&utm_medium=copy&rc=ex0share |
| Who should this digital teaching resource be used with? (ie year/grade) This presentation on Prezi is appropriate for year 5/6 students. |
| How should it be used? (e.g. individual, whole class) This presentation should be used individually so students can click through at their own pace. When it comes to the creative writing task, students may collaborate with one another and continue working individually. |
| Which subject or learning area would it be most appropriate to use in? This presentation is appropriate to use in a civics and citizenships class. According to the Australian Curriculum, students should have an understanding and knowledge of the roles and responsibilities of the different levels of government (n.d). |
| Identify the strengths of this teaching resource The strengths of this presentation are that it is engaging with short and providing interesting activities. Students are able to click through the presentation at their own pace, later answering questions in a quiz. |
| Identify any weaknesses of this teaching resource The weakness of this presentation is the quiz. The quiz is not colourful and engaging as I would have liked, which students might find boring. Secondly, this presentation relies on access to the internet, which can be unpredictable. While it can be more planned through school booking systems, access to enough consoles to watch the presentation can become an issue. |
| Explain any ideas you may have for further use of this teaching resource This resource could be used as an introduction to look specifically at the Prime Ministers of Australia and their achievements. Educators can delegate Prime Ministers to students in small groups. Students then have to research the Prime Minister they received and create a presentation. |
